1. PRODUCT AND COMPANY IDENTIFICATION

1.1 Product name: Potassium Humate TEA

1.2 Product use for: Used as soil improvement substances

1.3 Manufacturer/ Address: 9 Moo 10, Danchang-Samchuck Rd., Nongmakamong, Danchang, Suphanburi 72180 Thailand

1.4 (Emergency case Telephone Number) Tel: (0) 3596-9905-07, 081-905-4418 Fax: (0)3541-8353

2. Hazards identification

2.1 Classification of the substance or mixture

No Information

2.2 GHS label elements, including precautionary statements

The toxicological properties of this substance have not been fully investigated. Take appropriate steps to prevent the possibility of direct contact with the skin or eyes and to prevent inhalation

OSHA - No Information

3. Composition/information on ingredients

3.1 Hazardous Substance or Ingredients

Potassium humate CAS No. 68514-28-3

ingredient	%	CAS No.	EINECS N.
Potassium(K_2O dry basis)	Not less than 20%	12136-45-7	
Humic Acid(dry basis)	Not less than 30%	1415-93-6	

Other name: Humic Acids

4. First aid measures

Inhalation: Leaving the area into fresh air if symptoms do not improve, get medical attention immediately.

Ingestion: If swallowed, drink 3-4 glasses of water immediately. Never give anything by mouth to an unconscious person. Refer a doctor

Skin contact: Take off contaminated clothing and shoes. Wash thoroughly with plenty of water and soap for at least 15 minutes.

Eye contact: Rinse eyes with plenty of water for at least 15 minutes. Hold the eyelids apart to make sure to wash the entire surface and eyelids with clean water. Then deliver to the doctor immediately.

5. Firefighting measures

Flash point > No Information

5.1 Suitable extinguishing and extinguishing media

Use water to spray foam fire extinguishers. Dry chemical powder or carbon dioxide type

5.2 Specific hazards arising from chemicals

No Information

5.3 Special protective actions for fire fighters

Wear respirators if necessary.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoiding causing dust Avoid breathing vapors, mist or gas. Ensure that there is sufficient ventilation. Evacuate people to safe areas. Avoid breathing dust. For personal protection see section 8

6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let the product enter the drain. Must be released into the environment

6. Methods and materials for containment and cleaning up

Pick up and arrange disposal. Sweep and scoop. Store in an appropriate and closed container for disposal.

7. Handling and Storage

7.1 Caution for safe handling

Avoid contact with skin and eyes. Avoid the formation of dust and aerosols Avoid exposure - get special instructions before use. Provide proper ventilation in dusty places. For precautions see section 2.2

7.2 Conditions for safe storage

Keep in a cool place Keep container tightly closed in a dry, well-ventilated place.

8. Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure limit values

No Information

Biological limit values

No Information

8.2 Appropriate engineering controls

8.3 Personal protective measures such as personal protective equipment (PPE)

Handle in accordance with good industrial hygiene and safety practice. Wash hands thoroughly before breaks and after work.

Face and eye protection equipment

Safety goggles with side protection plates in accordance with EN166. Use eye protection equipment that has been tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

Skin protection equipment

Wear clothes Choose the type of protective equipment according to the concentration and amount of hazardous substances in a particular workplace. Deal with gloves Gloves must be inspected before

use. Use proper glove removal techniques. (Without touching the outer surface of the glove) to avoid skin contact with this product

Protect the respiratory system

Wear a dust mask when dealing with large quantities.

9. Physical and chemical properties

Physical: Dark brown to black powder

PH: 9-11

Odor: a little

Moisture content: 0-5%

Melting point: No Information

Boiling point: No Information

Flash point: No Information

Freezing point: No Information

Vapor pressure: No Information

Vapor density (Air = 1): No Information

Relative density: No Information

Solubility: 100%

Volatile matter ratio (%): No Information

Auto ignition: No Information

Self-igniting temperature: No Information

Highest and lowest value for flammability Or explosion: No Information

10. Stability and reactivity

10.1 Stability: Stable under recommended storage conditions.

10.2 Danger of decomposition: - No data available.

10.3 Hazardous polymer conditions to avoid: - No data available.

10.4 Incompatible (Material to avoid): - No information

11. Toxicological information

11.1 Acute poisoning

Skin corrosion / irritation: - No data available.

Eye irritation / serious injury: - Not available.

Respiratory or skin sensitization: - No data available.

Germ cell mutagenicity: - No data available.

Carcinogenicity: - No data available.

Reproductive toxicity: - Not available.

12. Ecological information

12.1 Toxicity

Toxicity to the aquatic environment: - No data available.

12.2 Persistence and degradability: - Not available.

12.3 Potential for accumulation: - No data available

12.4 Other side effects: - No data available.

13. Disposal considerations

Waste disposal methods: Dispose of in accordance with all federal, state and local laws and regulations. Do not release to the pipe system. Sewage system

Contaminated packaging: Containers can be washed. (Or equivalent) and can be recycled or reconditioned another option is Puncture of the packaging so that it cannot be used for other purposes and then discarded in a hygienic landfill Controlled combustion

14. Transport information

DOT classification: - No data available.

Correct Shipping Name: - Not available.

Label: - No data

Packing group: - Not available.

ID number: - No data

15. Regulatory information

Chemical name	Common names and synonyms	CAS number	EC number
Potassium humate	Potassium humate	68514-28-3	none
European Inventory of Existing Commercial Chemical Substances (EINECS)			Listed.
EC Inventory			Listed.
United States Toxic Substances Control Act (TSCA) Inventory			Listed.
China Catalog of Hazardous chemicals 2015			Not Listed.
New Zealand Inventory of Chemicals (NZIoC)			Listed.
Philippines Inventory of Chemicals and Chemical Substances (PICCS)			Not Listed.
Vietnam National Chemical Inventory			Not Listed.
Chinese Chemical Inventory of Existing Chemical Substances (China IECSC)			Listed.

16. Other information

NFPA ratio: Health = 2, flammability = 0, reaction = 0

Special hazards = Not found

Personal protective equipment = x

* Consideration of hazard class as follows:

Danger Level: 0 = Lowest, 1 = Low, 2 = Medium, 3 = High, 4 = Highest
